BACKGROUND ON HAWAII'S INTERNET PORTAL

2009 has been a year of tremendous growth for HIC and we are standing at the precipice of a new chapter in our history. In the past, the portal has been a relatively typical, small population portal. We have had a small staff with a limited number of applications. Now, as we stand in the fall of 2009, the portal has more than 25 partners, more than 60 production applications, and a team of 15. In the coming year we plan to increase our staff more still, to further aid in our growth.

Over the course of the fiscal year, 18 applications were released. Of these, 12 were fee based and 6 were free services.

A key achievement of the portal this year was the release of the Content Management System (CMS) Alfresco. With Alfresco, HIC is now able to branch out and offer new web design, hosting, and maintenance services to partners. Previously, our focus has been on developing interactive applications, but now we can begin to offer another useful service that will benefit many in the State. Alfresco can make it easy for non-technical users to edit their own web pages, and in turn facilitate nearly instantaneous publishing of new content. No more complicated deployment processes or multiple staff members are needed to manage a site. To date, two websites have been launched with three more expected to be live before the end of 2009.

Another key achievement was the establishment of the acceptable use policy for State government websites. Portal worked with partners and the web subcommittee and created the acceptable use policy to share, as applicable, across the state and counties. With that in place, we were able to assist the Hawaii State Judiciary to monitor and locate the customers performing data mining from Court Connect via web robots.

In 2010 we are looking forward to releasing some highly requested applications that will greatly benefit the public and the State. The first is the State-wide camping reservation system. The portal is already working with three out of the four counties to use the same camping system. All three of them have expressed much interest and are ready to use it starting next year.

Another high profile application will be the online marriage wedding permits system, which will allow couples to register online and authorized officiants to complete and issue certificates online. Over 20,000 people are married in Hawaii each year and this application holds potential to greatly simplify the process for all parties involved.

DCCA Annual Filings

Filing my annual report online was easy.

Wish other jurisdictions made it so easy - and you sent me an email reminder!

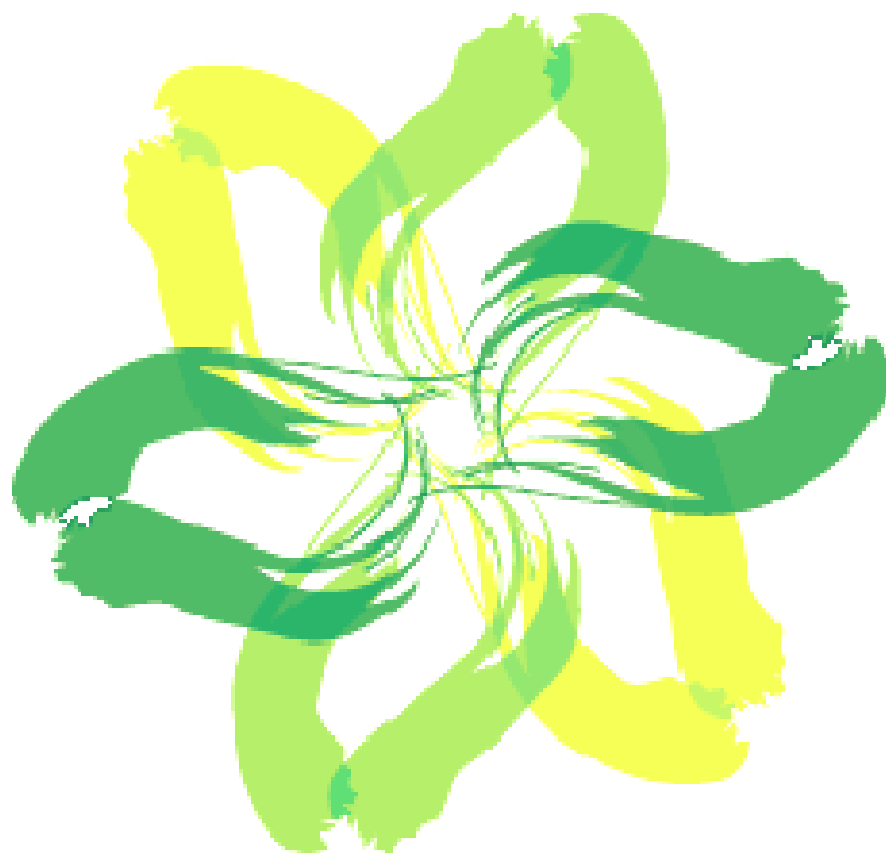

Fabulous!

Kauai Online Motor Vehicle Renewals:

<https://mvr.ehawaii.gov/renewals/index.html?county=kauai>

Launched in: Feb 2009

Allow registered owners to renew their motor vehicle registration online.

DLNR Commercial Marine Licensing System:

<https://dlnr.ehawaii.gov/cmls-public/app/welcome.html>

Launched in: Nov 2008

Allow commercial marine license holders to renew or apply for new licenses and register bottom-fishing vessels online.

Wiki Wedding Permits:

<https://dlnr.ehawaii.gov/permits/welcome.html>

Launched in: Nov 2008

Wiki Permits is an online permitting service, which allows authorized applicants to reserve and purchase right-of-entry (ROE) permits for commercial activity on unencumbered land, specifically, State public beaches.

CMS Hosting:

HIC developed the following websites using our CMS solution, Alfresco, to create and maintain web site content for the following:

- Hawaii Personal Finance Expo (website plus payment processing)
<http://www.pfehawaii.com/>
- Oahu Metropolitan Planning Organization.
<http://www.oahumpo.org/>

PVL Renewals:

<https://payments.ehawaii.gov/propertytax/hawaii/index.html>

Multiple license renewal cycles were completed that allowed various license types to renew their professional and vocational licenses online, many at a reduced fee.

UCC Filings

<https://boc.ehawaii.gov/ucc-recording/index.html>

Launched in: July 2009

This online system allows you to complete a UCC financing statement and submit the payment online. An email acknowledgment is sent to the user once the document is processed.

Hawaii Electronic Tax Filing System Upgrade:

<http://www.ehawaii.gov/efile/>

Launched in: January 2009

Annual changes to the electronic tax filing system to include: year end form changes, auto calculation for form G-45, and enhancements to allow for transient accommodations forms Ta1 and Ta2.

*Thank you Hawaii
State Government
for this very

PVL Continuing Education Real Estate System:

<https://pvl.ehawaii.gov/rece/>

Launched in: Oct 2008

The continuing education system will allow licensees to view their current CE credit standings online, and be able to order a copy of the course completion certificate online. Its provider module will allow course providers to manage course and attendees. System also will include a Real Estate Branch staff module to manage subjects, providers and licensee data.

HBE Fee Changes:

<https://hbe.ehawaii.gov/BizEx>

Various fee changes were implemented for initial business filings.

Sex Offender Site Updates

<http://sexoffenders.ehawaii.gov/sexoffender/welcome.html>

Launched in: Jan 2009

The sex offender website was updated to include additional information regarding the offender as well as a new email alert function to notify you when a sex offender moves in to your area.

DCCA Complaint Management Search:

<http://cms.ehawaii.gov/cms>

Launched in: January 2009

Completed an upgrade to the existing name search function, to improve the probability that a customer will find the entity they are looking for and provide consistent results between the internal DCCA search and the eHawaii.gov site. The look and feel was also updated to match the current DCCA site.

Hawaii State ID

This online option to apply for State ID card is very, very good due to the fact that we can save lots & lots of time.

Portal User Account (Lala) Enhancements:

<http://lala.ehawaii.gov/lala/>

Launched in: January 2009

Lala is the single-sign-on service implemented for most of our applications (e.g. ECrim, HBE, HUI Express, HBE, Calendar). Users now sign in using their email address instead of username, along with other usability, administration, and security enhancements.

Thank You Very Much.

eBench Warrants

<https://judiciary.ehawaii.gov/warrants/index.html>

Launched in: March 2009

Enables all levels of the law enforcement agencies to search, view, and process new and existing traffic warrants

DCCA Agent Search

<https://hbe.ehawaii.gov/agentsearch/search.html>

Launched: March 2009

This application allows agents to search for businesses that list them as the agent of record with the DCCA.

Judiciary – District Court Judge Survey

May 2009

This was the first all electronic survey the Judiciary has completed, the last Judge survey was done by both mailing and online. Allowed attorneys to complete online survey on District Court Judges.

Payment Processing (Kala) Upgrades:

The existing payment portal, Kala, was enhanced to allow third party applications to send payment due information to Kala and let user complete payment transaction online. Also included CVV data for credit card charges.

APPLICATION SPOTLIGHT: EBENCH WARRANTS

The Electronic Bench Warrants project was initiated in August 2007 after the Bench Warrants Task Force had identified a substantial backlog of unserved warrants. eBW was piloted in March 2009 on Oahu with cooperation from the Judiciary, Law Enforcement Agencies including the Sheriff and County Police Departments, Harbor Police, Prosecutors, Public Defenders, and the Hawaii Criminal Justice Data Center. Currently we have close to 250 users of the eBW system, with Maui County being recently added to the access group. HIC has also created training videos for the users to easily familiarize themselves with the system.

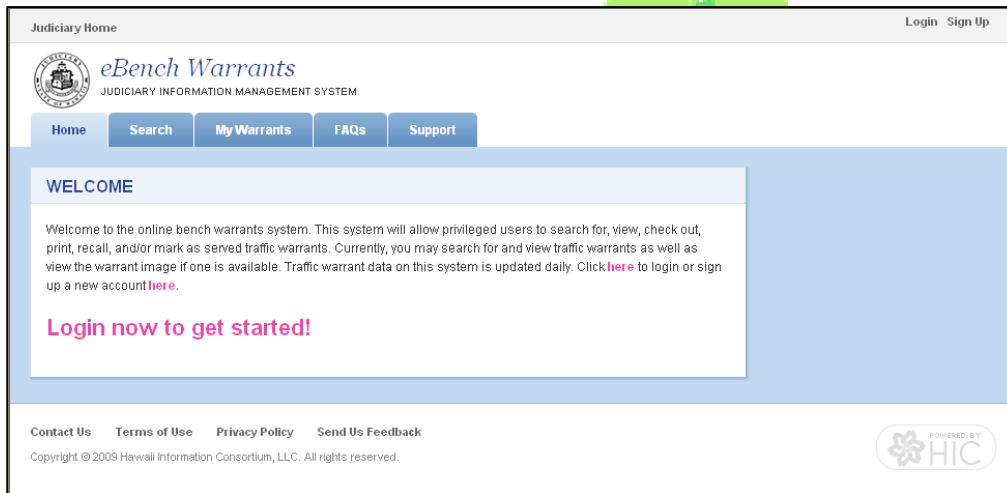

Image A: eBench warrants landing page

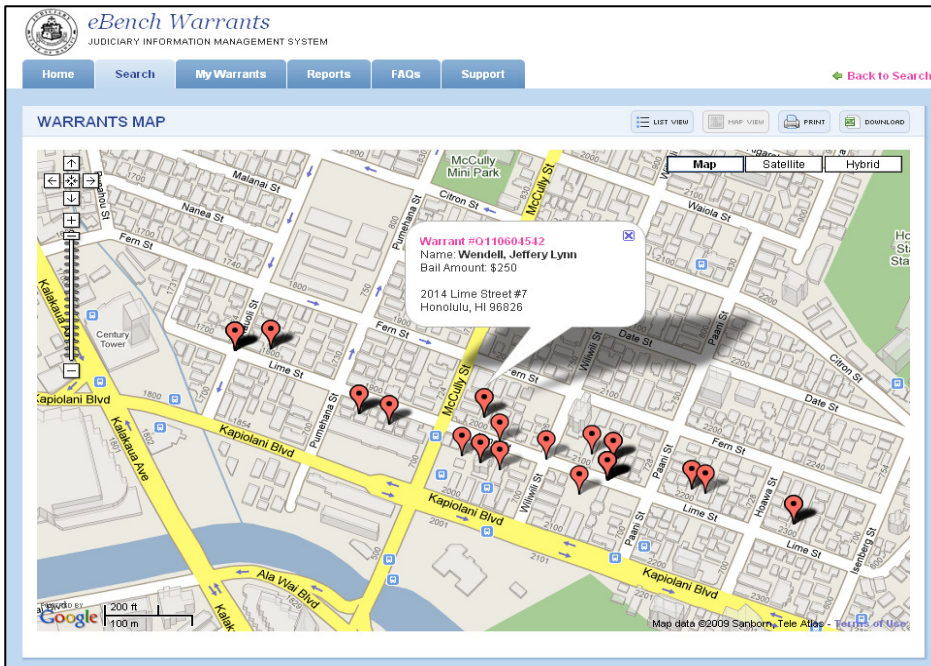

Image B: Map view of the Search Results, ability to group warrants by geo-location to enhance the area sweep results.

"The Judiciary has placed a tool in the hands of the Sheriff Division that allows us to make more arrests in a shorter period of time. Scofflaws who previously thought they had time on their side when ignoring court dates and bench warrants should take notice."

James L. Propotnick, DPS. Deputy Director of Law Enforcement

Prior to eBW, on average, Oahu Sheriffs arrested 12-15 people and served 20-25 warrants during sweeps. These numbers have now more than doubled. Oahu Sheriffs save about 40 hours of prep time for each sweep using eBW due to the advanced search and sorting capabilities.

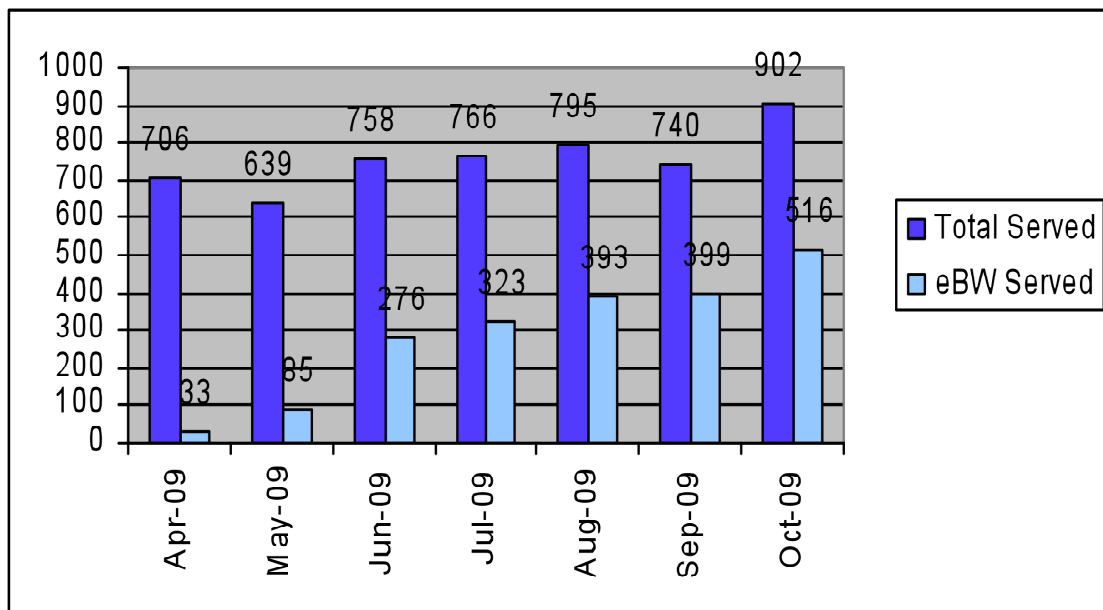

Image C: Statistics of total warrants served. Warrants served from eBW continue to increase.

eBenchwarrant Future Plans:

- 2010 – Criminal warrants will be added to JIMS and we can begin including these warrants in eBW.
- 2010 – Kauai and Hawaii users will have access to the system.
- Expanding the user base and adding enhancements to eBW.

PROJECTS CURRENTLY IN DEVELOPMENT

Electronic Bill Notification

Will allow users to sign up for to receive an email when bills are due, as well as to receive delinquent notices if a bill is not paid on time.

Hawaii Teachers Standards Board

Three projects will be completed for HTSB:

- *HTSB website* – Site will be developed using the Alfresco CMS system.
- *HTSB Backend System*
- *Hawaii Teachers License Online Renewal System* – Application will allow users to search for teachers as well as manage their license data online.

Online Motor Vehicle Renewals: *Hawai'i County*

Will allow registered owners to renew their motor vehicle registration online for the County of Hawai'i.

Hawaii Electronic Tax Filing System Upgrade:

2009 form upgrades will be completed as well as allowing amended G-45/49 filings, available to file January 1, 2010.

DLNR Statewide Reservations

Will allow the public to purchase permits online for camping, cabins, and shelters throughout the State on each island.

Superstore

Will be a simple means for agencies to generate orders and collect payment online using the HIC payment processing system. Superstore will allow our partners to take one-time payments, perform web-based collections, sell inventory, and most other payment-oriented activities that have no other data components.

Hawaii State Judiciary Site Redesign

We will be assisting the Judiciary in redesigning their site using the Alfresco CMS system. eHawaii.gov will assist with the migration and design, making the site ADA accessible, and include a calendar solution.

Maui Property Tax Payments:

Individuals with property on Maui can complete their property tax payments online using a credit card or electronic check.

Hawaii BREG Online Documents Search

I use a lot of other states' SOS/corporations web sites, and this one is one of the best--easy to use, lots of information available, good balance between free and paid information.

Thanks for setting the bar high!

Narcotics Registration Renewal

Online license registration and renewal for distribution of controlled substances.

Online Marriage Registration Systems

Allows couples to register online and authorized officiants to complete and issue certificates online.

Honolulu Online Auctioning System

Confiscated goods at the Honolulu airport security gate will be auctioned online.

Civil Resources Violation Systems (CRVS)

A case management system for DLNR to process Civil Resource Violations while reducing impact to the DOCARE officers and courts. It includes an online system for respondents to file responses to a citation, pay fines, and track status of their case. Ultimately CRVS will interface with other DLNR systems which detect violations.

Hawai'i Judiciary Land Court Petition Filing System

Will provide a secure and convenient way to complete petitions to amend a Transfer Certificate of Title and pay filing fees.

Vehicle Violation Monitoring

Will allow car rental companies to monitor the status of a registered vehicle based on the tag number and to be notified of any violations that are reported.

Kalaiwa Driver Monitoring Service

Will allow insurance companies and data aggregators who are approved by the Judiciary to purchase traffic abstracts online.

Capital Improvement Projects

HIC is working with DAGS to redo the existing Capital improvements projects website. The site showcases how Federal stimulus funds are being used to improve infrastructure on the islands.

Online Bureau of Conveyance Documents Search

We will be replacing the existing Land Title Records Search and Ordering System - <http://bocweb.dlnrbc.hawaii.gov> (which we are currently only taking payments for - the website is hosted by another vendor). With the new system, we will be hosting the website and taking payments. In Phase I, the fulfillment process will be manually done by BOC staff. In Phase II, we will automate the fulfillment process by accessing the BOC content management system directly.

In 2009 the portal continued its marketing efforts to inform customers of the opportunities to conduct transactions online through direct mailing of postcards and email reminders. The Portal mailed over 211,000 pieces of letters/postcard reminders and sent 209,000 email notifications.

DCCA Online Documents

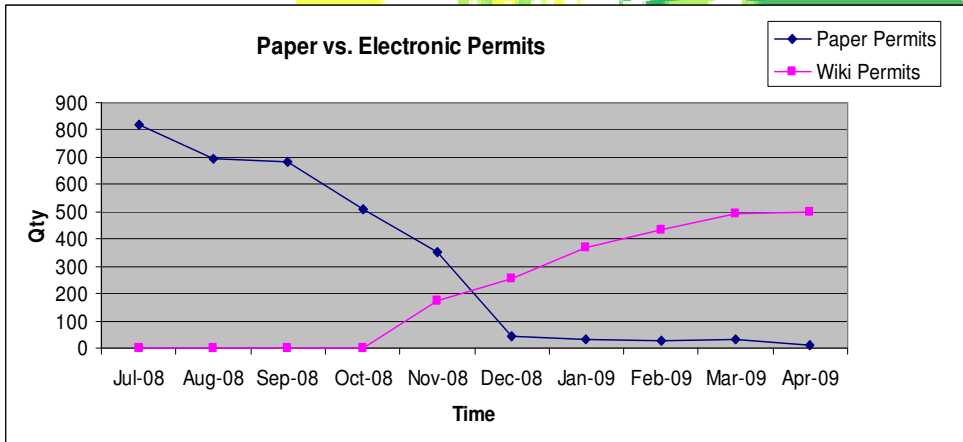

This is the first time I used DCCA document online purchase.

It was so "pain free" and in these days of high cost of gas, I loved the ability to get what I wanted, without leaving my office!!!

Online Adoption Highlights

Wiki Permits (Wedding Permits)

Since the launching the Wiki Permits system more than 95% of all permits are issued electronically. We've received great feedback from the wedding industry and it is saving both time and money for the DLNR and everyone who is issued an electronic permit..

Online Insurance Renewals

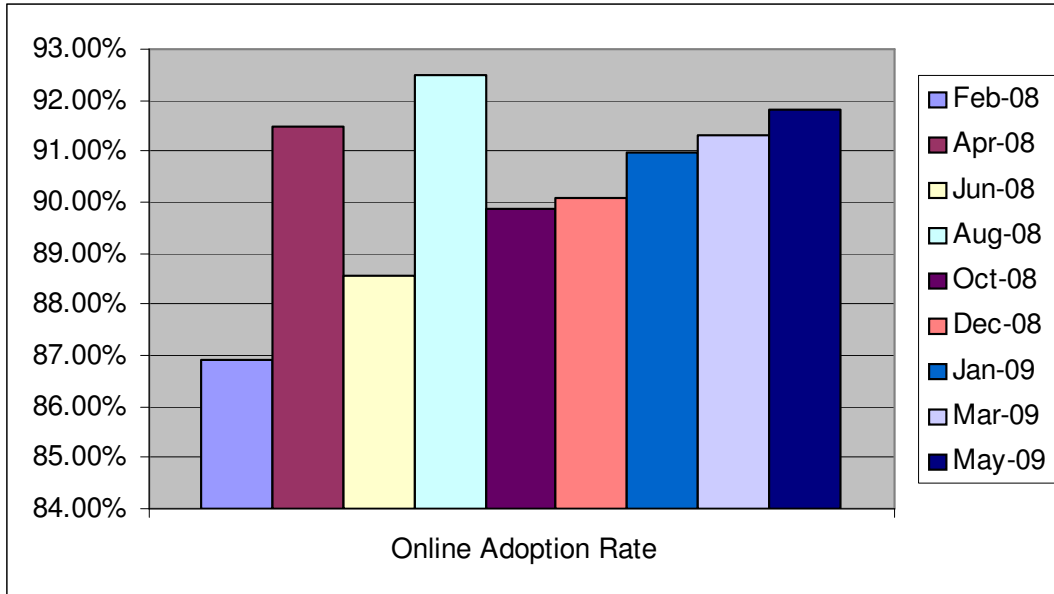

The portal continued its marketing efforts by providing mailing inserts for the form mailing; and sending postcard and email reminders to Insurance licensees who are due for renewal. We continue to see growth in the number of licensees renewing online. HIC has been working with the DCCA Insurance Division to get the actual number of licensees renewed for each period since the beginning of 2008 and consistently realize around a 90% in online adoption rate.

*Kauai Real Property

Thank you.

Business Annual Filings

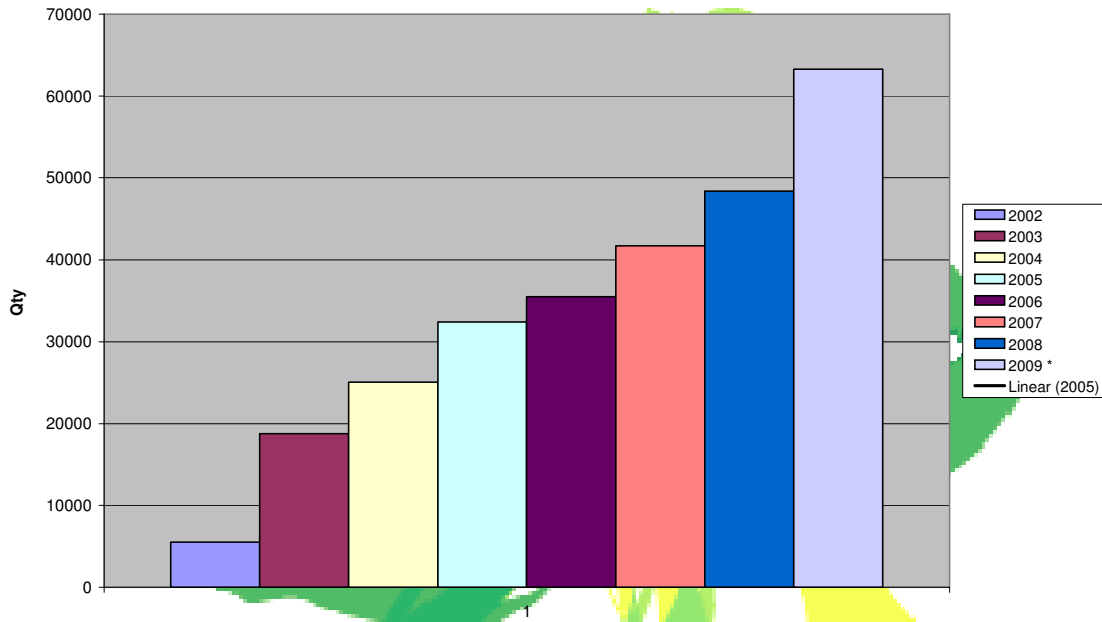

Started in Q4 2008, one year after announcing the discontinuation of the annual form mailing from the DCCA Business Registration Division (BREG), the number of online annual filings increased to 54,174, a 20% increase over the 2008 fiscal year. BREG is also saving more than \$20,000 per year on the paper, printing, and mailing costs for 100,000 forms per year,

Hawaii Business Express

User friendly site.

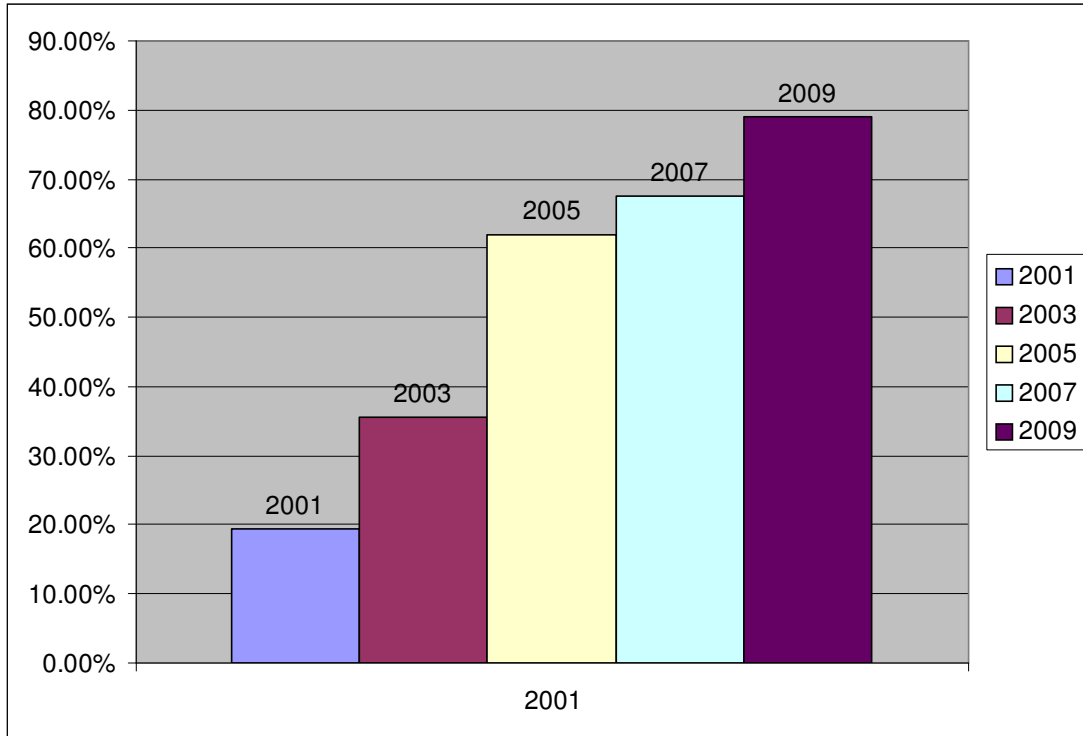

Very well put together and informative for first time users and business registrants.

Professional & Vocational License Renewal

During fiscal year 2009, close to 60,000 licensees renewed online. Compared with the same group during 2007, there was an overall increase of 20% in online adoption. One of the highlights was during the December 2008 cycle, when 94% of the licensees of the Real Estate group renewed online.

Awards Submitted

The Portal submitted the following awards on behalf of the partners during the fiscal year 2009.

- 2009 NASCIO (National Association of State Chief Information Officers) Recognition Award for Outstanding Achievement in the field of Information Technology, in the category of Digital Government: Government to Business – Hawaii Wiki Permits
- 2009 Center for Digital Government DGAA (Digital Government Achievement Award)
 - Government to Business Category – Hawaii Wiki Permits
 - Government to Citizen Category – Hawaii State ID Card Express

Other Activities

The portal took part in the Personal Finance Expo, put on by the Hawaii Council on Economic Education, that was held at The Blaisdell Exhibition Hall on August 15th and 16th 2009. All portal staff volunteered to work shifts at the Expo and promoted online services at our booth. We learned a great deal about the public's perception of the portal and which services have broad appeal.

Important Statistics (July 1, 2008 to June 30, 2009):

2,951,840 Visits:

A visit is defined as the number of individual sessions initiated by a user who visits the site.

1,417,320 Absolute Unique Visitors:

Absolute Unique Visitors counts each visitor to the website only once throughout the entire fiscal year. Repeats visitors are tracked in the overall 'visits' category above. Absolute Unique Visitors only display new visits to the site.

14,238,000 Pageviews:

A pageview tracks each instance of a page being loaded by a browser. If a visitor hits reload after reaching the page, this will be counted as an additional pageview. Or if the user navigated to a different page then returns to the original page, a second pageview will also be recorded.

4.82 Average Pages Per Visit:

These are the average number of pages viewed by each visitor to eHawaii.gov.

3:40 Time on Site:

This is the average time each visitor spends visiting eHawaii.gov.

36.21% Bounce Rate:

The bounce rate is the percentage of single page visits or visits in which the person left your site from the entrance page. In other words, a bounce is an exit that was also an entrance. For example, if the page had 100 visits and 10 of those were entrances (they didn't come from another page on your site), if 5 of those entrances immediately exit (don't view any other page on the site), the bounce rate would be 50%. 5 out of 10 entrances were exits.

46.31% New Visits:

This statistic tracks users' new visitors to eHawaii.gov. This is tracked via cookies, which are pieces of text hosted in the users' browser.

The top keywords above are the ones most commonly entered when searching for information about the portal.

Improving Portal Site Navigation

We will be working towards making information easier to access on the portal, www.ehawaii.gov, by developing a new homepage utilizing our Content Management System. Potential updates include creating a new all services page that is easily searchable and can be indexed by various criteria such as agencies, alphabetically, or by category. We will utilize existing user feedback throughout our redesign process to make the site more intuitive and easy to navigate.

Marketing

Hic will continue to work with key partners to drive online adoption and focus on new initiatives to cross market services, including: foreign language advertisement in local non-English news papers, advertising in new areas such as the Weekly, posters, attention-grabbing flyers, mailing inserts, and reminder postcards and working towards eliminating agency paper form mailings entirely.

The Portal will submit at least two national awards to bring national attention to our partners and the portal. In 2010, we are poised to win a couple of awards for the eBench Warrants system. We have already received much acclaim and interest from other state and county agencies, including LA County Sheriffs.

Services

In 2010, the portal will continue to work with partners to bring new and innovative services online while improving services for the constituents of the State of Hawaii. We are posed to launch at least eight new services and they are:

- Statewide Camping System
- Civil Resources Violation Systems
- Electronic Marriage Registration System
- Online Narcotics Registration Renewal
- Online Surplus Auctioning System
- Online Fishing Catch Reporting System
- Big Island Online Water Payment System
- Online Teachers Licensing Renewal System

Certificate of Good Standing Search

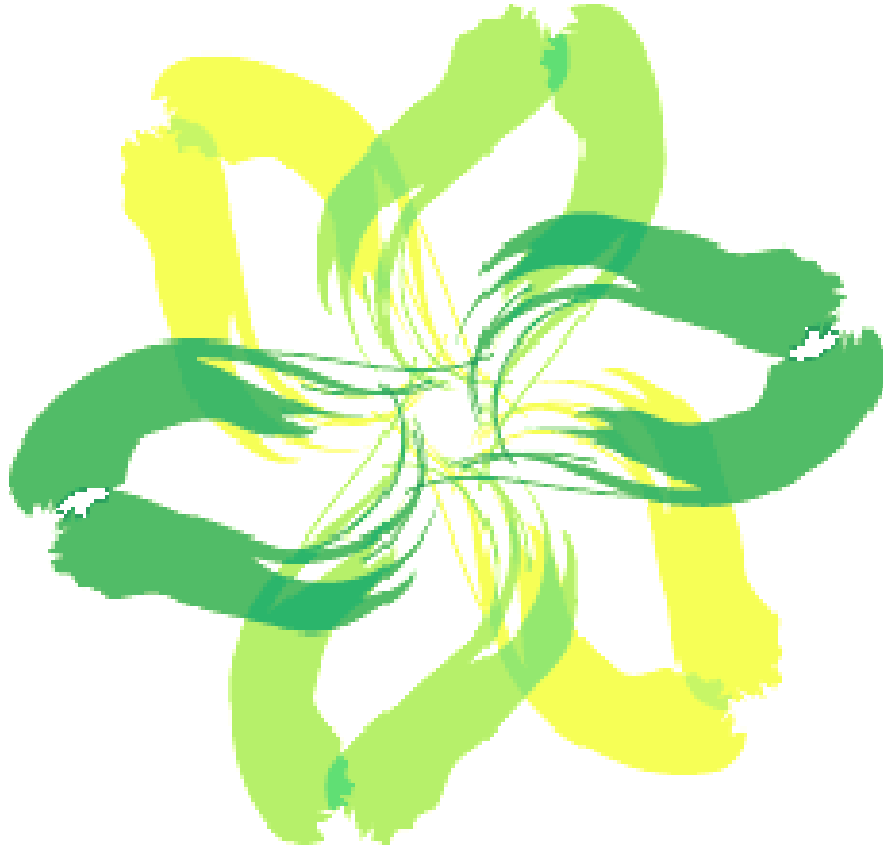

Being able to purchase electronic files and receive them immediately is of great value.

Thank you for offering these options keep up the great work, you're appreciated more than you may know.

IN CLOSING

The HIC team appreciates the opportunity to work with agency partners from all branches of state and county government in Hawai`i, and to make exceptional services available to the public, businesses, and other government agencies.

2009 was a great year for the state and 2010 promises to build on the impressive list of services available.

eBench Warrants

"I believe that the electronic bench warrant system pilot serves as a basis for future opportunities to leverage technology to provide great benefits for the people of Hawai`i and add operational efficiencies. I look forward to continued collaboration between our organizations."

The Honorable Chief Justice Ronald T.Y. Moon
