

Project Summary

Board of Water Supply, County of Kauai, Department of Water

Project Name: Department of Water Website Redesign

Business Model: Fixed Rate

Project Overview

Problem – Our current site has been live since 2000 and we're in need of a redesign to modernize the look of the site as well as include a mobile friendly, responsive design.

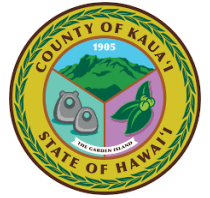

Our site will be an information hub where Kauai residents can find info about construction/planning projects happening around the island, learn about the the building permitting process, and see available jobs.

Solution – We will work with Tyler Hawaii to redesign our site in WordPress.

Additional Benefits – A professionally designed website will instill credibility and trust and make the website more user friendly.
