

# County of Hawaii – Department of Liquor Control

**Project Name:** Licensing & Permitting Application

**Business Model:** Transaction Funded

---

## Project Overview

### Problem:

- The existing County of Hawaii Licensing & Permitting application was launched in 2017. There may be perceived financial barriers to using the online system.

### Solution:

- The County will absorb the transaction fees for liquor license renewals and gross liquor sales percentage fees to increase use of the online system.
- Additional benefit: Online submissions reduce manual work and human-error in processing paper submissions.
